

New! From Eltool Corp.

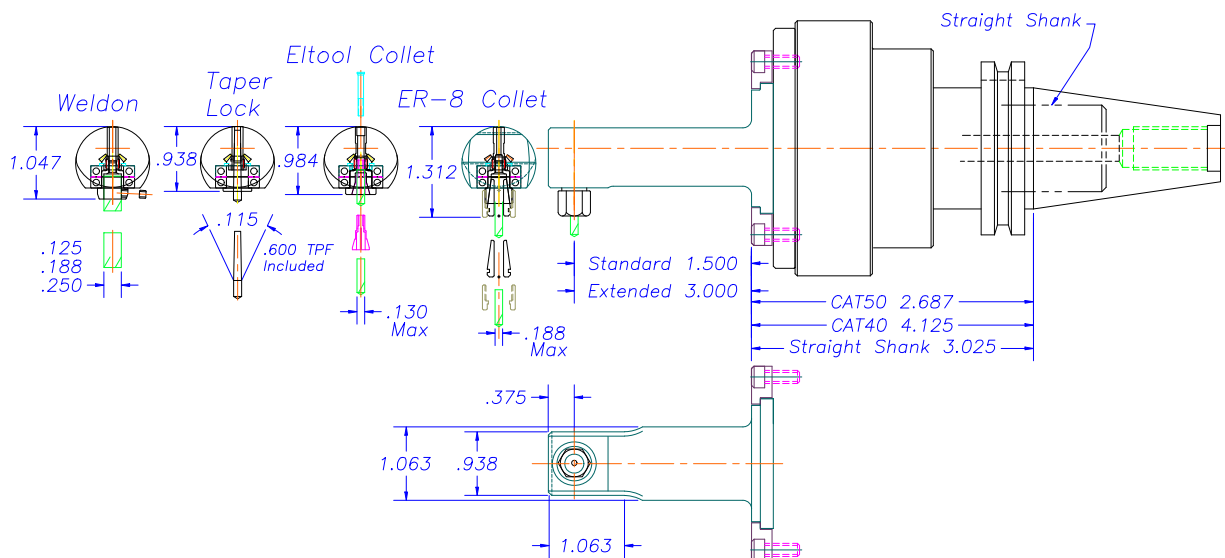

Model 521 Torque Multiplier: For “heavy duty” applications requiring higher torque at lower speeds, the Torque Multiplier is a planetary gear with a five- to-one gear ratio. Torque is increased and speed reduced by a factor of five. The Torque Multiplier adds 1.125” to the length of the angle head. It is available factory installed on new tools or is easily retrofitted to existing tools. For new orders, simply add the designation “521” to the part number (i.e. CV-50-2-D-1-1-3-**521**)
 Model 521 Torque Multiplier: Price ea. \$1480

Size IM Milling Style Angle Head: A head suitable for milling (previously available for for Size 2 and 3 heads only) is now available for the Size 1 head also. The Size IM incorporates two pre-loaded bearings on the front of the spindle for improved performance and durability in side load applications. To order, simply add the “M” designation after the size designation in the part number (i.e. CV-40-1-**M**-2-1-1)

Size IM Angle Head, Standard Length: Price ea. \$6020

Size IM Angel Head, Extended Length: Price ea. \$6170

1665 Central Avenue, Cincinnati, OH 45214
